TRANSCRIPT

THE UNIVERSITY OF
**WESTERN
AUSTRALIA**

Sneha R

has completed the following course:

AGRICULTURE, ECONOMICS AND NATURE
THE UNIVERSITY OF WESTERN AUSTRALIA

100%
AVERAGE TEST
SCORE

On this course, we explore key economic principles that will help you to make sense of the changes that have occurred in agriculture and understand why different agricultural economic decisions have been made. We cover subjects like agricultural production methods, input levels, resource conservation, and sustainable agricultural production, and consider how improved economic thinking can positively impact these areas.

STUDY REQUIREMENT

6 weeks, 3 hours per week

SYLLABUS

- Explore the history of agricultural production and prices, and examination into the reasons behind changes in production and prices.
- Develop understanding of water availability, peak phosphorus, herbicide resistance, and climate change.
- Look at the relationship between inputs and outputs, the optimal level of an input, the question of pollution from inputs, and flat payoff
