Observe and understand what is happening in your field through conferences

Identify the key issues and trends in your field through conferences

Identify the key issues and trends in your field through conferences

Evaluate your strengths and identify possible directions for your research. It is better to choose areas you are comfortable to work on than the area which is upcoming in your research field.

indhumathi k g

JEYSRI P S

K.Ramya Lakshmi

Work minimum for four months to produce a quality paper

Every day write a paragraph or more

Make a first rough draft then go for revisions

Your first paper should go for minimum five revisions

Citations of recent works are very important

At last, your paper will be ready for publication
