CODE OF ETHICS

Education and ethics go hand in hand. Education without ethics is futile. The success of education lies at the implementation of ethics, which in turn itself should be implementable and practicable. The code of ethics is designed with such objective and significance.

Purpose

To educate the Students and the Faculty members on their behaviours and to protect their rights

Scope

All the Administrative Personnel, Faculty members and Students should follow the code of ethics absolutely without any deviation

Policy

Administrative Personnel

➢ Commitment to equity, equality and professionalism

➢ Equitable educational opportunity for all students

➢ Justified execution of authority free from favouritism and nepotism

➢ Execution of academic responsibility in accordance with policies and strategies without any deviation

➢ Commitment to serve others above self

➢ Transparency in all sorts of academic activities to ensure institutional credibility and accountability

➢ Holistic development of Students, Faculty members and the institution

Faculty Members

➢ Impartial treatment of students at all sorts of academic endeavors irrespective of any religious, communal, gender and any other discrimination

➢ Respectable behaviour to retain professional dignity

CODE OF ETHICS

- Inculcation of Honesty as the first chapter in the book of wisdom among the Students
- Consistent Assessment of professional competence
- Strict adherence to professional relation with students
- Encouragement towards intellectual competence among the students
- Practice over the sense of responsibility towards the environment and society
- Stimulation towards endless love and boundless compassion for learning

Students

- Self- disciplined to abide by the rules of the institution
- Indomitable spirit of learning to excel
- Assertion to practice high code of conduct
