**Awareness on World Environment Day
“Water Conservation”(05.06.2019)**

The World Environment Day is observed every year on 5th June. World Environment Day is celebrated across the world to raise awareness and describe the importance of Mother Nature. World Environment Day was established in 1972 by UN general assembly at the time of stockholm conference.

In this regard, our ECO CLUB of KASC regularly gave awareness to the college and school students and public peoples. On 05.06.2019, Pamphlets on “Water Conservation” were distributed to the Public peoples at Nanjanapuram Village by our ECO CLUB Students volunteers. The need to conserve water was emphasized to the people at Nanjanapuram village. The practice of using water efficiently to reduce unnecessary water usage was explained.

**Orientation Programme cum Guest Lecture on
“Water and its importance”(26.08.2019)**

An Orientation Programme and Guest Lecture on “Water and its importance” was conducted to the ECO CLUB Volunteers on 26.08.2019 at PG Seminar Hall and Mr. Shivakumar, Rain Water literacy foundation, Erode served as a resource person. As every individual depends on water for livelihood, we must learn how to keep our limited supply of water pure and away from pollution and this was instructed to the 80 volunteers. In his lecture, he elaborated the essentials of Water for our life, and insisted to the students as there is no life without water on earth and also emphasized the importance of rain water harvesting.

**Field Visit to Rain Water Literacy Foundation
(21.09.2019)**

An eco friendly house is an environmentally low impact home designed and built using materials and technology that reduces its carbon foot print and lowers energy needs. A Field visit was arranged for ECO CLUB volunteers to Rain Water literacy foundation, Kanthampalayam, Nasianur, Erode on 21.09.2019. Around 50 students visited and gained an idea about Eco friendly house construction and rain water harvesting and its present need. He explained the importance of rainwater harvesting is an effective and eco friendly method of reducing water usage at home, which will lead to reduced water wastage.

Storing rainwater helps in recharging the aquifers. It helps in preventing urban flooding due to excess rain. Prevention of soil erosion and floods is one of the most important reasons why we should adopt rainwater harvesting. It saves millions of gallons of water from going down the drains.

To create awareness on Rainwater harvesting various competitions like Essay writing, Drawing and slogan writing was conducted to our college students on 23.09.2021. Students enthusiastically participated and exhibited their talents and the exhibits of the selected students were send to Tamilnadu Water Board in-charge with reference to the letter.
