

KONGU ARTS AND SCIENCE COLLEGE (AUTONOMOUS), ERODE

ECO CLUB

Orientation and Awareness programme on 19.07.2017

REPORT

The goals of the orientation programs are to create student's familiarity with the institution's regulations and academic standards, acquaint the students with their classmates and to learn about the other institutional members that will help students succeed.

An Orientation and Awareness programme on Organic farming was given by Uyir foundation , Erode on 19.07.2017. Organic farming is an old practice which reduces the exposure of harmful and dangerous pesticides and fertilizers which makes our soil unfertile for agriculture. By practicing organic methods of farming soil fertility can be increased. Students came to understand the importance of organic farming with the specific examples given during this programme with an evidence. About 215 students benefited
