

KONGU ARTS AND SCIENCE COLLEGE (AUTONOMOUS), ERODE

ECO CLUB

Extension activity on 23.02.2018

REPORT

Tree plantation means planting trees and plants. The purpose of tree plantation is to save the endangered environment and to beautify our life. Trees are valuable gifts of nature. They are known as the best friends of human beings. Trees provide food, protection, and homes for many birds and mammals.

As an extension activity - Tree plantation and wild life Photography exhibition was conducted at Sengulam Panchayat Union School, Chennimalai. In this programme the importance of planting trees to save Nature was explained to the school students. Wild life photographs were also displayed and the students realized the beauty of nature and their action towards protecting nature was emphasized. 70 school students got benefited.
