**Extension Activity - 16.02.2020**

Awareness on "Electricity conservation and safety measures" was conducted on 16.02.2020 to the Kathirampatti village people and the children of Panchayat Union Primary School, Kathirampatti. School students and Public were made to understand the usage of energy saving bulbs through smart power strips. Also awareness on electrical hazards and basic electrical safety measures were provided. Our student volunteers explained Electrical energy conservation tactics at home and school. School students enthusiastically involved and assured the adoption of energy conservation practices.
