

KONGU ARTS AND SCIENCE COLLEGE

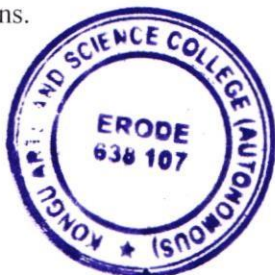

(An Autonomous Institution, Affiliated to Bharathiar University, Coimbatore)

Erode- 638107

GRADUATE ATTRIBUTES

The institution always aims at accomplishing the following graduate attributes in students with the prospect of grooming them as passionate learners, enlightened scholars, esteemed leaders and prominent global citizens.

- Institutional success lies not at the enforcement of rules on students but of voluntary acceptance and consistent follow up of the regulations by the students themselves. The institutional practices ensure such traits of self discipline among students in all its academic activities and behavioural aspects.
- Diligence is the first step in pursuit of intellectual wisdom. Students are educated consistently to work hard and to learn things with love. Student centric teaching learning pedagogy assures one such ambience for passionate learning.
- Punctuality is educated not as a trait limited to time but of respect to one's own commitment. Strict adherence to time is followed up in all sorts of academic activities to tend the students to be punctual and responsible.
- Respect is built upon courtesy for another human being. Our students are educated to value others and to be self- reliant simultaneously. Value Education has been incorporated as one of the courses in curriculum itself.
- Confidence and optimism as the magical power of success is made practicable through our institution's strong mentor- mentee system. Our students are always guided to go confidently in the direction of their dreams with hope.
- Team spirit among the students is practiced through activities like Group Discussion, Presentation and active participation in competitions. This indeed enables them to understand and realize that team work divides the task and multiplies the success.
- Everybody has their own goal to achieve. A goal without plan becomes a mere dream. In regard to this, the institution renders its academic and moral support to every student to achieve their goals as per their needs and tend them to be goal- oriented.
- Undistracted attention supplements effective learning. Students are assessed on their attentiveness inside the class through several activities and enlightening brainstorming sessions.
